CASE WAS CONTINUED.

Mrs. Sarah Liberman and Mrs. Wolf Rosen, With Many Others, Were at Court to No Avail.

Mrs. Sarah Liberman was on hand in police court Friday morning to answer to the charge of assault and breach of the peace. She was accompanied by her entire family and her attorney, Thomas J. Kelley. Mrs. Wolf Rosen, the complainant, her husband and quite an array of witnesses and spectators were also on hand. The case was not heard, however, as Prosecuting Attorney E. Frank Bugbee said that he was not prepared to try it, as he had several witnesses to secure, and requested that the case be continued until Monday morning at 9 o'clock. Deputy Judge James A. Shea, consequently granted the request in view of the circumstances surrounding the case.

There is said to be quite a story in connection with the case and that the fight that was the cause of the case had Wednesday evening on Bank street.

MORE TROUBLE FOR

CONTRACTOR LANGEFELD.

Taken Into Toils of Law on Charge of Intoxication and Breach of the Peace—Inspector Throwing Out Paving Blocks.

Contractor A. J. Langefeld, the much abused man who has been trying to fulfill his contract with the city in the matter of the paving of Main street, was taken into the toils of the law shortly after 12 o'clock Friday, and lodged in the police station on the charge of intoxication and breach of the peace.

Perhaps he deserved a lesson, but that is hard for the layman to judge. It is the trend of public opinion, however, that Mr. Langefeld should be allowed to complete his contract without interference so long as he keeps within the law. Some men of known integrity and irreproachable standing in the community stated Friday that Mr. Langefeld was no more intoxicated Friday noon than many a man along the street, and were surprised when they heard that he had been placed under arrest.

The strapping inspector on the job has further complicated matters by commencing to measure and throw out blocks that he claims are not what they should be. Some people are wondering why he is doing this. The answer, once the work has been going along satisfactorily for some days past and the stone being used now are exactly the same as has been used without protest heretofore.

In the opinion of many, it looks very much like a deep laid scheme to try and make all the trouble possible for the temperamental excitable contractor, who when plumb sober has the appearance of a man beset with harassing trials and tribulations that would drive an ordinary man to even more lengths than he has gone.

How About that Refrigerator?

Now is the time when the need of a new refrigerator ought to be appreciated.

It often happens that an old one after years of constant use consumes more ice than you really need to pay for, and a new well made ice box will be a great saving to you in this respect.

We have a fine line of the best refrigerators—carefully constructed to consume the least amount of ice. Better step in and see what we have to offer—it will pay you.

For summer comfort there is the fire-cooler—great for saving fuel, and the Perfectum and American Oil Stoves that make summer cooking easy.
